## »» About Beihang

Founded in 1952, Beihang University is the first higher education institution in aeronautics and astronautics in China. As one of China's first 16 key universities, Beihang always stands at the forefront of aerospace research. Supported by national initiatives like the "211 Project," the "985 Project," and the "Double First-Class Initiative". Beihang has evolved into a comprehensive research university encompassing engineering, natural sciences, and humanities and social sciences, striving to build a world-class university.

Beihang has excellent scientific and technological innovation capabilities and offers high-quality educational programs across a broad range of disciplines, including engineering, science, management, liberal arts, law, economics, philosophy, education, medicine, and interdisciplinary studies. Eight of its academic disciplines are selected into "Double First-Class Initiative", such as Aerospace, Instrument Science, Materials Science, Computer Science, Software Engineering, Mechanics, Control Science and Engineering and Transportation Engineering.

Currently, over 1,100 international students from more than 110 countries are pursuing degrees at Beihang. The "Yuanhang Project" provides various exchange programs, such as international summer schools, research internships, and double degree programs. Beihang is committed to building a global campus that cultivates innovative talents with cross-cultural awareness to meet future demands.

We sincerely invite you to join us on this exciting journey of pursuing academic excellence, innovative creation, and global engagement, where dreams take flight and excellence knows no bounds. We will try our best to help you get a great bright future.

## »» Program Introduction

Chinese Government Scholarship High-level Postgraduate Program is a full time and full scholarship program sponsored by Chinese Government to finance the talented international students with excellent academic background, professional abilities, and future development potential to pursue their master's and doctoral degrees in China.
